

Michael D. Lees
President
Babcock & Wilcox Canada

Mike Lees, President of B&W Canada and Group Vice President of B&W Nuclear Energy, is responsible for B&W's commercial Nuclear business in Canada and the supply of Nuclear Equipment worldwide.

A 1980 graduate of the University of Waterloo in Applied Physics, Mr. Lees joined B&W Canada in 1980 as a Stress Analyst in our Nuclear Engineering Department. With extensive experience in the power generation industry, he held a number of positions of increasing importance with B&W Canada since that time, including General Manager, Nuclear Steam Generators & Components and Director, Business Development & Marketing before becoming President of B&W Canada in 2007. In 2003, Lees obtained his MBA from the Richard Ivey School of Business, University of Western Ontario.
