

Rodney Sheppard
President
The Society of Energy Professionals

Originally from Sudbury, Ontario, Rod Sheppard has been employed in nuclear security for over 30 years. He has been involved in all the changes that have taken place in that industry since 1983, either as a manager or other leadership role, including several peer audits and the Independent Integrated Performance Assessment of 1998-99.

Joining the Society of Energy Professionals in 1994, Rod has served in every capacity—from rank-and-file member to delegate on up. He was elected to the Society's Board of Directors in 1998, and became President in 2007. Shortly after becoming President of the Society, he was elected a Vice President of the Ontario Federation of Labour.

Rod also serves on the Ontario Minister of Energy and Infrastructure's advisory panel.

The challenges ahead for the electricity industry are immense, and Rod is proud that the nuclear industry will be a vital part of meeting them. He, the Society, and its membership look forward to working with all stakeholders to achieve the industry's goals.
