

Michael H. Chatlani
Vice President, Marketing & Sales
Power Systems and Simulation
L-3 Communications MAPPS Inc.

Since 1996, Mr. Chatlani personally assumed responsibility for L-3 MAPPS' Power Systems and Simulation business's sales and grew sales and market presence, establishing the company as the world leader in the production of power plant simulators. He is supported by sales professionals, a proposal development team and several sales representatives globally. Mr. Chatlani also manages the company's communication needs. Prior to 1996, Mr. Chatlani held various positions in project management implementing both energy management and power plant simulator projects.

Michael holds a Bachelor of Engineering (Mechanical) degree from Concordia University in Montreal, Canada.

L-3 MAPPS has over 20 years of experience in pioneering technological advances in the marine automation field and over 30 years of experience in delivering high-fidelity power plant simulation to leading utilities worldwide. In addition, the company has more than three decades of expertise in supplying plant computer systems for Canadian heavy water (CANDU) reactors. L-3 MAPPS also provides targeted controls and simulation solutions to the space sector.
