

# 2003

NUCLEAR CANADA YEARBOOK

*Suppliers' Addresses & Representatives*

# We're there with nuclear services

- customer-focused, full scope service
- highly-skilled, qualified Canadian-based capability
- unmatched OEM knowledge and expertise in steam generators, heat exchangers, pressurizers, feeders, and other components
- extensive training support including simulations and mock-ups
- a fully-accredited Pressure Boundary Q.A. Program
- balance of plant capabilities, including valves and electrical components
- industry-leading technologies
- engineering services based on extensive OEM experience
- practical, innovative solutions
- experience in every CANDU 6 plant around the world

## Babcock & Wilcox Canada

*Serving Canadian nuclear plants with engineering, manufacturing, and service solutions since the beginning of nuclear power generation in Canada*

**When you need us, we're there**

Babcock & Wilcox Canada • Nuclear Services  
581 Coronation Boulevard • Cambridge, ON • N1R 5V3  
Tel. (519) 621-2130 • Fax. (519) 621-8550 • www.babcock.com/bwc  
e-mail: nuclear@babcock.com

## Suppliers' Addresses and Representatives

### 3-L Filters Ltd.

427 Elgin Street North  
Cambridge ON  
N1R 8G4

#### Contact:

**Dr. Bob Goel**  
Tel: 519-621-9949x350  
Fax: 519-621-3371  
email: bgoel@3lfilters.com  
Webpage: www.3lfilters.com

### 3M Canada Inc.

P.O. Box 5757  
London ON  
N6A 4T1

#### Contact:

**Mr. Darryl Torhjelm**  
Tel: 519-452-6089  
Fax: 519-452-6286

## Who is Nuclear Safety Solutions Limited (NSS)?

Enhancing performance through partnering

- ✓ The largest privately held consultancy in the Canadian nuclear industry today.
- ✓ The former Nuclear Safety Analysis Division of Ontario Power Generation (OPG).
- ✓ A work force of highly skilled, diverse, dedicated, energized and extensively experienced professionals.
- ✓ The premier provider of safety analysis and risk assessment services helping clients maximize business value through the safe and efficient operation of their nuclear plants.

### Answer: All of the above

Interested? Visit [www.nuclearsafety.com](http://www.nuclearsafety.com) or call us at 416-592-7000. NSS is a wholly owned subsidiary of NNC Holdings Limited, an independent, multi-disciplinary international consultancy organization with around 1,300 professional engineers, scientists and managers, providing consultancy services in the UK, North America, Asia, South Africa and Europe. NSS develops practical solutions to clients' problems by calling on the knowledge and expertise of our in-house resources.

• Nuclear Safety Analysis & Assessment • Reactor & Radiation Physics • Thermal Hydraulics  
• Structural Integrity • Probabilistic Risk Assessment

## INVESTING IN ONTARIO'S NUCLEAR ENERGY FUTURE

Over the past 30 years nuclear energy has generated clean, safe and reliable electricity for Ontario. At Ontario Power Generation, our nuclear and hydroelectric generation plants provide two-thirds of OPG's electricity production virtually free of smog emissions. Clean, reliable and safe electricity. It's our goal and our commitment. Nuclear energy is helping us to get there.

putting our energy to good use

Success depends on outstanding performance—it's something we all strive for. In the nuclear utility business, performance means safe and reliable operation and high capacity factors. As an "intelligent supplier", AECL understands customer needs. We bring world-class solutions based on more than 50 years of experience and our ongoing advancements in research and development.

So whether you need to develop life extension strategies, streamline operations and maintenance activities, shorten your outages, or refurbish units to bring them back to best-in-class performance, we will work in partnership with you to ensure your success. After all, it's a goal we all share.

## Working as a team to ensure your success.

### Did you know AECL offers:

- outage management and support
- comprehensive Plant Life Management (PLM) programs, including condition assessment of components
- design and fabrication of specialized equipment and tools
- field services
- engineering services, including licensing support and safety analysis
- spare parts procurement and re-engineering
- full-scope steam generator services
- fuel handling services/robotic solutions
- fuel channel inspection services
- environmental qualification
- configuration management
- testing and analysis in our well-equipped hot cells and other facilities
- waste management and decommissioning
- turnkey solutions

And more...
