

2008

Nuclear Canada  
Yearbook

Suppliers' Addresses  
and Contacts

## **Focus (v) : to concentrate attention or effort**

At Babcock & Wilcox Canada, we focus.

We focus our solutions to meet your unique requirements.

We pride ourselves on innovation and engineering excellence. Our nuclear steam generators have an outstanding performance record. Our replacement reactor vessel closure heads incorporate unique manufacturing processes to minimize residual stress. And our nuclear services for equipment inspection and maintenance keep your plant operating efficiently with minimal downtime.

Expertise. Attention to detail. Focus. Our approach delivers outstanding results.

a McDermott company

# NUCLEAR ENERGY WILL HELP KEEP ONTARIO'S LIGHTS ON FOR DECADES

Electricity powered by nuclear energy is very much part of Ontario's future. With nuclear providing a base, wind power, hydro power and conservation will continue to grow in importance and contribute meaningfully to Ontario's energy mix. A healthy mix of electricity generation is exactly what Ontario needs to grow and prosper. And Ontario Power Generation is ready to meet Ontario's needs in the future as we have in the past.

**ONTARIO**POWER  
GENERATION

[www.opg.com](http://www.opg.com)

Our power comes from within

**Canadian-made CANDU® nuclear technology is lighting up the world—and brightening Canada's future.**

A \$5 billion per year industry, CANDU technology provides employment for thousands of Canadians in more than 92 companies. And the building of new CANDU technology in Canada could contribute \$30 billion to our GDP over the next 20 years.

Together, Team CANDU®—a consortium of five leading nuclear companies—can help Canadians meet our power needs.

**Emissions-free electricity. Brighter employment prospects. An energized economy.**
