

Ken Nash

Ken Nash was appointed President of the Nuclear Waste Management Organization (NWMO) June 30, 2006. He is a founding director of the NWMO and the immediate past-chair of the organization's Board of Directors. As a Board member Mr. Nash was responsible for providing the necessary oversight and resources to ensure a process of integrity in the NWMO study of nuclear waste management approaches.

He has held a number of management positions at Ontario Hydro and Ontario Power Generation (OPG) in the areas of finance, engineering, and environmental management.

In his current capacity as Senior Vice President, Nuclear Waste Management Division at OPG, Mr. Nash is responsible for all aspects of nuclear waste management. This includes licensing, environmental approvals, operations, and OPG's research and development program for the long-term management of used fuel currently established in several Canadian universities and in collaboration with international partners.

He is also responsible for ensuring sufficient funds are set aside for the long-term management of OPG's nuclear waste liabilities. Ken Nash is also responsible for lifecycle planning and development for long-term waste management including power plant decommissioning.

Ken Nash was born in Accrington, England, and graduated from Salford University in 1974 with a First Class Honours Bachelor of Science Degree in Mechanical Engineering. He is a member of the Professional Engineers of Ontario.
