

## **Pierre Charlebois**

Pierre Charlebois is the Executive Vice President and Chief Operating Officer at Ontario Power Generation Inc. (OPG) responsible for the operation of the nuclear, hydro, and fossil businesses.

OPG is an Ontario-based electricity generation company whose principal business is the generation and sale of electricity in Ontario. OPG's focus is on the efficient production and sale of electricity from its generating assets, while operating in a safe, open and environmentally responsible manner.

From December 2003 to November 2006, Mr Charlebois served as Chief Nuclear Officer responsible for overseeing OPG's nuclear generation business and its performance.

From October 2002 to December 2003, Pierre Charlebois held the position of Nuclear Chief Operating Officer and Chief Nuclear Engineer responsible for design, modifications, training, radiation protection, security and other facility support services. He was also responsible for the oversight of the day to day operations at Pickering and Darlington.

From September 1999 to October 2002, Pierre held the position of Senior Vice President, Technical Services and Chief Nuclear Engineer, Nuclear Operations Support and Services. In this position he was responsible for managing the Engineering, Nuclear Analysis and Inspection Divisions. These divisions provide common standards, procedures, services and inspection programs to the two OPG nuclear generating plants.

Pierre Charlebois was formerly Director, Station Engineering Support from 1998 to September 1999. He has extensive technical, operational and management experience in the operation of CANDU power plants. From 1996 to 1998, Pierre Charlebois formed a consulting company providing management and technical services. He conducted a study of the different approaches to plant life cycle management and assisted Atomic Energy of Canada Limited (AECL) in developing a program for CANDU 6.

Pierre Charlebois held a number of senior management positions at the Pickering Nuclear Division from 1989 to 1996, including Technical Manager, Production Manager and Plant Director.

Born in Hawkesbury, Ontario, Pierre Charlebois graduated from Ottawa University in 1975 with a Bachelor Degree in Applied Science. He is a member of the Professional Engineers of Ontario.
