Delivering Proven Results for the nuclear industry

Engineer • Manufacture • Construct • Service

For over 50 years, Babcock & Wilcox Canada Ltd. (B&W Canada), has been engineering, manufacturing, constructing and servicing for the nuclear industry around the world.

Our reputation for innovation and engineering is unparalleled in the industry. Worldwide, more than 299 B&W steam generators, as well as other equipment have been awarded or supplied.

B&W Canada has a reputation for outstanding performance, and we continue to provide nuclear services that keep your plant operating efficiently with minimal downtime.

B&W Canada offers complete engineering capabilities for nuclear equipment systems by highly experienced, field-oriented engineers. As a company with extensive experience in the construction business, B&W Canada is your best choice for the delivery of construction projects.

We are proud of our expertise, experience and commitment to excellence in customer service as we continue to build on our reputation for quality and innovative solutions.

NUCLEAR ENERGY WILL HELP KEEP ONTARIO'S LIGHTS ON FOR DECADES

Electricity powered by nuclear energy is very much part of Ontario's future. With nuclear providing a base, wind power, hydro power and conservation will continue to grow in importance and contribute meaningfully to Ontario's energy mix. A healthy mix of electricity generation is exactly what Ontario needs to grow and prosper. And Ontario Power Generation is ready to meet Ontario's needs in the future as we have in the past.

ONTARIOPOWER
GENERATION
www.opg.com

Ready for Canada now

Ready for Canada's future

CANDU® technology is ready today for the global marketplace, as well as for a new build right here in Canada.

We are the proud owners of a unique nuclear technology, and the Canadian men and women who design and build it are proud of the role they play in keeping us all at the forefront of global innovation.

Keeping AECL at the forefront of global innovation are our 2008 Awards of Excellence winners (pictured above), recognized for their outstanding contributions to Canada's nuclear industry.
