INTRODUCTION

The Canadian Nuclear Association Conference and Trade Show is the annual nuclear industry showcase. The theme of the 2020 Canadian Nuclear Association (CNA) Conference and Trade Show is Nuclear Now: Achieving our clean energy future.

The global fight to tackle climate change and save the planet is at a critical juncture. That is why Canada's nuclear industry must act now to help achieve our clean energy future. To transform electricity systems around the world, we will need every proven clean energy solution available. This includes recognizing the indispensable role Canada's nuclear industry will play in decarbonizing global economies through clean electrification. Join us in Ottawa in February 2020 as we look at the way forward.

WHO ATTENDS?

In 2019, we hosted an audience of over 830 individuals from within and outside Canada's nuclear industry. The high profile of our delegates makes the CNA Conference an excellent venue to showcase your business. Here's a quick snapshot of who came in 2019:
